Bibles for Pakistan

Only \$2.00 will place a Bible in the Urdu language into the hands of a Pakistani woman. We need your help to spread the Word! Since 2005 over 3500 Bibles have been distributed in Pakistan. Let's increase this number this year and share God's word with the women and children of Pakistan during Inspiration Day in October 2009. Please give your contribution to the elders, Louise White or Shirley Walters and designate "Bibles for Pakistan". The preschool Bible classes will be collecting coins to help with this effort. Parents, please encourage your young children to share their allowance with this effort.

WEEKLY

Vol. 17 No. 31

August 2, 2009

Welcome to the Lord's church that meets at Woodstock, Georgia. We find our authority in the inspired word of God and are governed in organization, faith, worship and work according to God's Holy Word.

A Note From Bryan... Cataclysm Story

Cataclysm stories are a part of human history. The Bible teaches that God created the earth and everything in it along with the known universe in six days. When He created man God blessed man and commanded him to be fruitful and multiply and fill the earth and subdue it. Man sinned and God cursed the ground so that it brings forth weeds where we endeavor to cultivate and tame it. Several generations later mankind became so wicked that God completely destroyed the earth by flood saving one family who was again commanded to be fruitful and multiply and fill the earth.

Think back into the recent past of all the stories you have been told in one form or another about the destruction of the earth and the end of time. Consider all the fear and hype associated with these stories. In the early 1980's during the "Cold War" the prevailing cataclysm story was thermonuclear holocaust. Even though it could have happened there is no telling what kind of anxiety that caused the people of this world.

Then, there was the "hole" in the ozone that needed attention or we were all going to burn up from UV overexposure. Fuel was reformulated and hairspray and other aerosols were reformulated sans cfc's and we moved on to the next popular man-made potential disaster. There were reports that scientists were fearful of "Deep Impact" from a giant rogue asteroid. There were numerous minor catastrophes that never happened that caused considerable fear and anxiety. Of course, who could forget "Y2K" and the apocalypse that was supposed to have caused? Cataclysm stories are part of the fabric of the human mind and part of our shared history of humanity.

Since God put eternity into the hearts of man (Ecclesiastes 3:11) mankind has predicted the end of the world. As a result, men without God prognosticate and create the cataclysm story which creates needless fear. Today we will look at the truth about the end of time and the destruction of the world.
